1. Document Revision History

Version	Date	Description
1.0	15/03/2016	Major Release R2016.1 (01/05/2016)

2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections that are part of this major release **R2016.1** of **1st May 2016**.

This covers:

- New or modified functionalities to eHealth webservices and webapplications
- New utilities, libraries, connectors to facilitate the call to the eHealth webservices (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components
- New Authentic sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms and user guides)
- The backward compatibility (which version remains valid or not)
- Point of contact

More detail can be found in section 4 of this document and on <https://www.ehealth.fgov.be/nl> and <https://www.ehealth.fgov.be/fr>

3. Main New Functionalities and Major Changes

- **eHealth Addressbook**

eHealth Addressbook is a generic address book for the Belgian health care sector. The user (sender, i.e. a natural person or an organization) is able to consult the received data (available in CoBRHA) through this web service and to decide which communication method is the most adequate for the recipient and the communication in question. This enables the senders (authorities, for instance) to develop flexible communication strategies.

- **Uniek Portaal / Portail unique WA (AKA lanua)**

The “Uniek Portaal/Portail Unique” should become the single access point for the healthcare professional where he/she can consult and change his personal and professional data known by the authorities (Federal, Regional,...)

The healthcare professional only has to communicate this information once.

All healthcare actors share the most up to date and reliable information on the healthcare professional (stored in Cobhra)

- **Evolutionary maintenance and corrections**

- eHealth Timestamping
- eHealth CoBRHA Consultation
- eHealth I.AM AA
- eHealth I.AM ARP
- eHealth I.AM IDP
- eHealth ServiceRegistry pipe
- eHealth Consent pipe
- eHealth Consent WA
- eHealth E2EE
- eHealth Therlink WS
- eHealth eCarmed pipe
- eHealth Chapter IV pipe
- eHealth CIVICS pipe
- eHealth Cobrha publication pipe
- eHealth DMG pipe
- eHealth etee-ra pipe
- eHealth RCT pipe
- eHealth Sadmi pipe
- eHealth Sadn pipe
- eHealth PIP Contact info
- eHealth Tuco pipe
- eHealth Tardis pipe
- eHealth Orthoprider pipe
- eHealth Defib pipe
- eHealth Pacemaker pipe
- eHealth PICT pipe
- eHealth Metahub pipe
- eHealth eHBox tech pipe (impact project AddressBook)

- **Currently Supported Browsers (minimal version)**

	Windows 7	Windows 8	Windows 10	Mac OS X
