# 1. Document Revision History

Version	Date	Author	Description of changes / remarks
1.0	23/10/2024	eHealth platform	Minor Release R2024.2.1 (03/12/2024)

## 2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections, which are part of this minor release **R2024.2.1 beginning the 26<sup>th</sup> November and ending the 3<sup>h</sup> December 2024** following canary release method.(\*)

(\*) more explication of this method via those links:

FR: <https://www.ehealth.fgov.be/ehealthplatform/fr/service-releases-management>

NL: <https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management>

It covers:

- New or modified functionalities to eHealth web services and web applications
- New utilities, libraries, connectors to facilitate the call to the eHealth web services (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components;
- New Authentic Sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms, user guides)
- The backward compatibility (which version remains valid)
- Point of contact

For more details: see section 3 of this document and at

**<https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management>** (Dutch version)

## 3. Main new functionalities and minor changes

### 3.1 RN Consult PersonReference (REST)

To meet the needs of the TRIO webapp, development of a new generic RNCONSULT service (REST) allowing the display of minimal data based on a NISS, namely the first and last name of a patient.

### 3.2 RN Consult PermissionService (REST)

The goal of this service is to retrieve the list of services, data and their conditions linked, configured by eHealth Security.

Access to this service will be limited to all healthcare organizations (having a valid eHealth certificate) and recognized in the authentic source CoBRHA for RIZIV and EHP organizations.

### 3.3 BelRAI Rest

The BelRAI 2.0 API allows healthcare organizations and individual care providers to register and consult BelRAI assessments. Software providers are provided with a number of methods via the API to facilitate integration with the central BelRAI platform.

### 3.4 DAAS

Therapeutic link and exclusion will be verified for the mult-eMediAtt project v3.

### 3.5 eAgreement V2

Service will allow an authorized health care provider to send these requests for agreement electronically and also to consult them and in particular Logopedists.

### 3.6 TRIO

As part of the “Return to Work Journeys”, a digital and secure collaboration platform called TRIO was created to promote collaboration between the different stakeholders involved in the context of reintegration into work.

### 3.7 UHMEP

The goal of this project is to digitalize referral prescriptions and proposals to facilitate their processing and exchange among different stakeholders: the patient, the caregiver, and the prescriber.

### 3.8 Evolutionary maintenance and corrections

- Remaph
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers

- IAM DB
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- Cobrha DB
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- API GateWay
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- Consent
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- Cobrha +
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- RN Consult
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- ETEE
  - Evolutive maintenance
  - No impact foreseen for external partners/package providers
- PIP Filiation: (Modify access rules for data minors)
  - Check if the authenticated user is known as legal representative.
