1. Document Revision History

Version	Date	Author	Description of changes / remarks
1.0	23/08/2023	eHealth platform	Major Release R2023.2(15/10/2023)

2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections, which are part of this minor release **R2023.2** of **15^h October 2023**.

It covers:

- New or modified functionalities to eHealth web services and web applications
- New utilities, libraries, connectors to facilitate the call to the eHealth web services (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, ...)
- New global solutions based on the combination of several eHealth components;
- New Authentic Sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms, user guides)
- The backward compatibility (which version remains valid)
- Point of contact

For more details: see section 3 of this document and at

<https://www.ehealth.fgov.be/ehealthplatform/fr/service-releases-management> (French version)

<https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management> (Dutch version)

3. Main new functionalities and minor changes

3.1 New certificate for timestamping

Renewal of 3 certificates for timestamping

OT_MOBILITY_IMPROVEMENT

OT_BANDAGES_ORTHOSIOLOGY

OT_PROSTHESIOLOGY

OT_SHOE_TECHNOLOGY

ORTHOPTIST

OPTOMETRIST

3.3 QIT Online

QIT online is an electronic patient file for care providers (clinical psychologists and therapists) that allows them to manage their client data correctly. The current basic functions for care providers are: creating files, logging sessions with and consultations about the client, keeping and creating documents in the file.

3.4 Recipe - Patient WS v4

optimization of the Long Term RESERVATION functionality via the following use cases:

Recip-e XSDs for the patient channel

- getExecutorProfile
- getExecutorProfileParam
- getExecutorProfileResponse
- getExecutorProfileResult
- updateReservation
- updateReservationParam
- updateReservationResponse
- updateReservationResult

3.5 WS Chapter IV

modify the MyCareNet-ChapterIVAgreementConsultation pipe v1 to systematically control therapeutic links for pharmacists.

3.6 e-Loket v2023

With the e-desk, Care and Health offers its customers an online central point to request or follow up on files. This concerns files about, among other things, permits, recognitions and subsidies or to make notifications and registrations.

Data collection in the context of:

- Recognitions
- Permits
- Construction files
- Quality
- Subsidies / Financing
- Notifications/Registrations
- Registration numbers
- Prices

And this for the target groups:

- Elderly care
- Prevention
- First line
- Home care
- Hospitals
- Mental healthcare
- Revalidation
- Care professions

3.7 Evolutionary maintenance and corrections

- IAM Connect
- eHbox v4
- IAM
- Cobrha DB
- ESB
- E2EE
- ApiGateway
- Metahub DB
