1. Document Revision History

Version	Date	Author	Description of changes / remarks
1.0	23/08/2021	eHealth platform	Major Release R2021.1 (17/10/2021)

2. Introduction

The objective of this document is to list changes, modifications, decommissions, bug corrections that are part of this major release **R2021.2** of **17th Otober 2021**.

This covers:

- New or modified functionalities to eHealth web services and web applications
- New utilities, libraries, connectors to facilitate the call to the eHealth web services (as for the end to end encryption library)
- Technical specifications and requirements (as for the network specification, system settings, minimum and compatible browser versions, patch levels, …)
- New global solutions based on the combination of several eHealth components
- New Authentic sources, semantics and syntactic standards
- New Value Added Services that should be released by partners with the official partner's production date (POC) and the eHealth production date
- New procedures to be applied

If applicable, this document specifies:

- The major deliverables (components, cookbooks, forms and user guides)
- The backward compatibility (which version remains valid or not)
- Point of contact

More details can be found in section 3 of this document and on

https://www.ehealth.fgov.be/ehealthplatform/fr/service-releases-management (*French version*)

https://www.ehealth.fgov.be/ehealthplatform/nl/service-releases-management (*Dutch version*)
